

ITC: Investing in World Class Infrastructure

ITC is investing in 20 modern state-of-the-art Integrated Consumer Goods Manufacturing and Logistics facilities across the length and breadth of the country to enable its FMCG Businesses to rapidly scale up, supporting the nation's Make in India mission. Creation of such world-class physical infrastructure for the future would enable ITC to constantly craft and deliver best-in-class products and provide ITC's brands a competitive

edge in terms of scale, freshness and close-to-market distribution. Such facilities, which include state-of-the-art food processing units, will further strengthen ITC's leadership across the farm-to-fork value chain, enhance cost efficiency whilst enabling greater value realisation to the farmer, and reducing India's agri wastages. Commercial production has already commenced at ITC's integrated facilities in Uluberia and Panchla in

West Bengal, Guwahati in Assam and Kapurthala in Punjab. Consumer Goods facilities in Trichi, Medak and Ambarnath are in advanced stages of development.
